

Your life is our business.

Key Partnership Facilities

Enhanced Insurance Solutions.

Our **Key Partnership** programme has been designed to make life easier for both you and your clients by providing simplified underwriting practices, enhanced terms and variable levels of commission to suit the business needs of both you and your clients.

Enhance your business potential with our Key Partnership facilities.

Key Partnership Facilities

Understanding our client's needs in what can sometimes be an overly complicated market place has been one of the main foundations of our success.

Another is the creation of sustainable long term business relationships. After all without your support we wouldn't be here in the first place.

In recognition of this we have recently launched our Key Partnership programme where we are looking to work with other like minded organisations across the UK, serious about developing both long term relationships and their own income generating revenue streams.

Our Key Partnership programme has been designed to make life easier for both you and your clients by providing simplified underwriting practices, enhanced terms and variable levels of commission to suit the business needs of both you and your clients.

We are confident that our Key Partnership programme, along with our trademark exemplary service and turnaround times could provide your business with the all important differential you are looking for in this most challenging of economic climates.

And we have no intention of stopping here. Other specialist facilities are planned for our Key Partnership programme in the coming months.

Can you really afford not to be doing business with Lutine?
